

Accomplish® LM is an innovative fertilizer catalyst designed to significantly increase fertilizer availability and overall plant health. Offers concentrated biochemistry in easy-to-handle liquid form. Formulated for broadcast and starter fertilizer applications.

FEATURES

- Powered by Fertilizer Biocatalyst Technology
- Compatible with most fertilizers, herbicides, fungicides, and insecticides
- Consistent performance across crop and soil types

GROWER BENEFITS

- Improves nutrient availability and uptake
- Enhances nutrient-use efficiency
- Promotes better root growth and development
- Designed to enhance applied-fertilizer applications

RATES

Apply 1-2 pt/A with starters; 1-2 qt/A broadcast with UAN and other liquid fertilizers; 2-3 qt/A with manures or poultry litter
