

PRO Iron⁵

6-0-0 Chelated Iron Solution

GUARANTEED ANALYSIS

Total Nitrogen (N)	6.00%
6.00% Ammoniacal Nitrogen	
Sulfur (S)	3.00%
3.00% Combined Sulfur	
Iron (Fe).....	5.00%
5.00% Chelated Iron	

Derived from: Anhydrous Ammonia and Ferrous Sulfate, Chelated with Citric Acid.

KEEP OUT OF REACH OF CHILDREN

WARNING

Harmful if swallowed. Avoid contact with skin, eyes or clothing.

F1548

FOR AGRICULTURAL AND PROFESSIONAL USE ONLY

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

FOR FOLIAR / SOIL APPLICATION

Recommendation for Use: PRO-IRON⁵ is recommended as a foliar or soil applied fertilizer for use on any food or fiber crop where the addition of one or more of the nutrients contained in PRO-IRON 5 would be beneficial. A number of variables influence the rate of application necessary to control or correct a specific deficiency. For best results, follow good agronomic practices, soil test and if necessary use tissue analysis.

Foliar Application: Use 1.0 to 2.0 quarts per acre prior to or immediately after deficiency symptoms occur to prevent or alleviate losses from nutrient deficiencies. Spray carrier (water) volumes of 10.0 to 20.0 gallons per acre (ground) or 5.0 gallons per acre (air) are recommended for best results. When deficiency symptoms are severe, a repeat application of 1.0 to 2.0 quarts per acre may be needed 2 or more weeks following the initial application.

Soil Application: Apply 1.0 to 2.0 quarts per acre as a starter fertilizer in a balanced fertility program.

STORAGE AND DISPOSAL

STORAGE: Store product in dark fiberglass or plastic containers out of direct sunlight or UV light. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products, and seed. PROTECT FROM FREEZING. Do not contaminate water, food, or feed by storage or disposal.

DISPOSAL: Do not reuse container. Triple rinse (or equivalent) and add rinsate to spray tank, then offer for recycling at an ACRC site (go to <http://www.acrcycle.org/>) or by reconditioning, or puncture and dispose of in a sanitary landfill or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment wash waters or spray waste.

HANDLING: Avoid breathing fertilizer mists. Avoid prolonged or repeated skin contact. Avoid eye contact. Wash hands thoroughly after handling this product.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC 1-800-424-9300.
