

PRO Tetra™

Pro Tetra™ (4-0-0) is part of a line of Pro Micronutrient Products designed primarily for soil application but with the added flexibility of foliar use to address the needs of a variety of crops across a range of cropping systems. Formulated with chelators and sequestering agents in addition to EDTA forms of metals, Pro Tetra™ from Loveland and available exclusively from Nutrien Ag Solutions, provides compatibility and application flexibility to provide the results growers demand.

GROWER BENEFITS:

- Flexible and compatible formulation of Zinc, Manganese, Copper, and Boron to prevent or resolve common deficiencies
- Nutrients are protected by multiple chelating and sequestering agents, including EDTA, to reduce tie up in soil applications

RATES:

1-2 qts/A for most crops

FEATURES:

- Highly available forms of multiple micronutrients
- Chelation and sequestering agents for compatibility with many fertilizers and optimized for efficiency in many application types
- Suitable for many crops including root & tuber vegetables, fruiting vegetables, leafy vegetables and permanent crops

ANALYSIS:

4-0-0 1% Sulfur, .80% Boron, 1.20% Copper, 2% Manganese, 3% Zinc
