

**Radiate**® is a patented formulation of IBA and kinetin, in optimized ratios, to enhance early season vigor and drive maximum root growth. The proven technology in **Radiate** combined with the original fertilizer biocatalyst - Accomplish® LM - provides growers consistent performance across a wide variety of crops and a true no-salt approach to at-planting nutrition.

### FEATURES

- A patented combination of IBA and kinetin in an optimized balance for root and shoot growth
- Flexible formulation is labeled for both in-furrow and foliar applications
- Compatible with most fertilizers and pesticides for utmost flexibility in tankmix partners

### GROWER BENEFITS

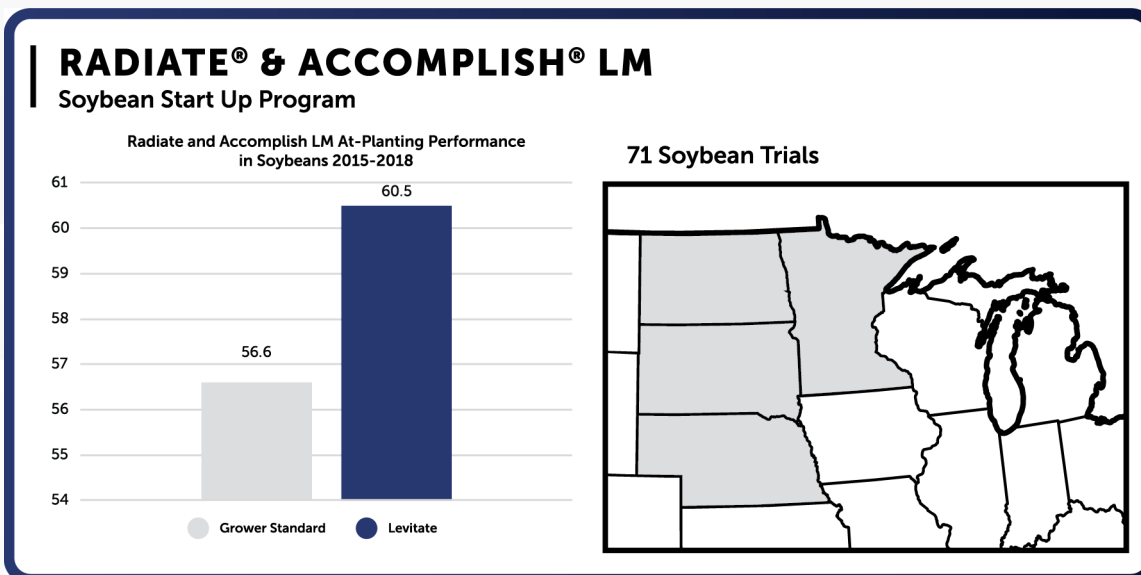

- Promotes vigorous root and shoot growth in all crops
- Larger root system is able to access more soil nutrition for increased uptake of key nutrients and water
- Improves early season vigor and reduces the negative effects of stresses experienced during the growing season

### RATES

Banded or in-furrow: 4 fl oz/A of **Radiate** and 1 qt/A of Accomplish LM

### ANALYSIS

**Radiate** - IBA and Kinetin; Accomplish LM - Selected Bacillus
