

**ReaX™ Complete** is a liquid blend of key micronutrients designed for at-planting and banded applications with foliar flexibility. Built with C<sup>2</sup> Technology, **ReaX Complete** addresses a variety of crop nutritional deficiencies with a blend of nitrogen, sulfur, boron, copper, iron, manganese, molybdenum and zinc to meet the yield and quality goals of growers in a variety of growing conditions.

## FEATURES

- Unique C<sup>2</sup> formulation maximizes micronutrient availability and mobility in the soil for superior uptake in the plant
- Designed for soil application with foliar flexibility
- Formulated to provide season-long availability of nutrition
- Non-phytotoxic nutritional formulation is flexible in application and sound for many crops in many growing conditions

## RATES

1-4 qt/A for most crops and applications

## GROWER BENEFITS

- Blend of eight micronutrients including sulfur, boron, copper, iron, manganese, molybdenum and zinc specifically formulated for soil-applied and foliar applications
- Unique technology complexes and neutralizes cation-charged nutrients, allowing for easier cuticle absorption
- Complexing and stability agents for application optimization

## ANALYSIS

4-0-0 2% sulfur, 0.25% boron, 0.5% copper, 0.5% iron, 1.5% manganese, 0.01% molybdenum and 1.5% zinc
