

ReaX™ Manganese is a liquid manganese designed for at-planting and banded applications with foliar flexibility. Enhanced with unique C² soil health and plant performance technology, **ReaX Manganese** is designed to improve nutrient availability to meet the yield and quality goals of growers in a variety of growing conditions year after year.

FEATURES

- Unique C² formulation maximizes overall nutrient availability and mobility in the soil and superior uptake in the plant
- Flexible formulation designed for many banded, broadcast, in-line or in-furrow soil applications with foliar flexibility
- Formulated to provide season-long availability of existing nutrition and applied fertility

GROWER BENEFITS

- Provides 4% manganese for plant-energy production and supports plant performance by encouraging nutrient utilization in the crop
- Stabilizes nutrients prone to movement in the soil for more reliably available nutrition
- Enhances buffering capacity to moderate accumulated salt effects in the soil

RATES

1-4 qt/A for most crops and applications

ANALYSIS

4-0-0 4% Mn with C² Technology
