

ReaX™ Zinc is a liquid zinc designed for at-planting and banded applications with two-foliar flexibility. Enhanced with unique C² soil health and plant performance technology, **ReaX Zinc** is designed to improve nutrient availability to meet the yield and quality goals of growers in a variety of growing conditions year after year.

FEATURES

- Unique C² formulation maximizes zinc availability and mobility in the soil and superior uptake in the plant
- Designed for the soil with foliar flexibility
- Formulated to provide season-long availability of nutrition
- Non-phytotoxic nutritional formulation is flexible in application and sound for many crops in many growing conditions

GROWER BENEFITS

- Provides 6.5% zinc for plant energy production and regulation of essential processes
- Supports soil microbiota for healthier, more biologically active soil
- Stabilizes nutrients prone to movement in the soil for reliably available nutrition
- Enhances buffering capacity to moderate accumulated salt effects in the soil

RATES

1-4 qt/A for most crops and applications

ANALYSIS

4-0-0 6.5% Zn with C² Technology
