

ZINK-GRO™ 20 16-0-0

ZINK-GRO™ 20 is a foundational ammoniated nutritional containing 20% Zinc for preventing or correcting Zinc deficiencies in a variety of crops. Designed primarily for soil applications with nitrogen fertilizers, ZINK-GRO 20 provides prevention of Zinc deficiencies and can also correct severe Zinc deficiencies when used correctly in a proactive nutrient management program.

GROWER BENEFITS:

- Robust formulation can correct severe Zn deficiency in many crops
- Maintenance rate diminishes risk of Zinc deficiency for a proactive approach to nutrient management
- ZINK GRO 20 is designed for any crop needing to correct Zn deficiency in a crop showing zinc deficiency
- Cost effective way to address the needs of crops with very high zinc demands

ANALYSIS:

16-0-0 20% Zinc

RATES:

Severe deficiency: 4 qt/A

Moderate deficiency: 2 qt/A

Maintenance Rate: 1 qt/A

FEATURES:

- Loveland Products' highest load Zinc in a Liquid formulation for use and broadcast or strip banded liquid nitrogen or potassium applications
- Ammoniated Zinc formulation blends very well with liquid Nitrogen and Potassium fertilizers for application efficiency
- Consider other Loveland Products Zinc Solutions for Phosphate fertilizer blends
- Formulated to work in the most common soil environments where zinc availability is an issue
